Today's Brain Teaser . . .

What term did English astronomer John Herschel coin in 1839 that literally means "writing with light"? (*answer below*)

How To Protect Yourself And Others On The Road

Could you pass a written driver's test – today? The results of an online GMAC Insurance survey showed that nearly 1 in 5 licensed drivers – 38 million Americans – probably wouldn't! Here's what you should do to brush up on the Rules of the Road and make yourself safer.

Take the National Drivers Test. Go to www.nationaldriverstest.com. Answer the 20 questions from state exams and study up on the ones you missed. You also can download it to Facebook and challenge your friends.

Review Local Traffic Laws. Many states post them on a .gov website.

Avoid these top driving mistakes that cause crashes:

- Multi-tasking while driving. Say "no" to: texting, phone calls and eating!
- Following too closely. Leave 2 seconds between you and the car ahead.
